Thuan Nguyen (Mei)

Senior Product Designer | Product Strategy, B2B SaaS & AI

+84 393 024 336 linkedin.com/in/thuan-nguyen-prd
bichthuan.des@gmail.com Portfolio: meinguyen.com

Senior Product Designer with 10 years of experience across B2B SaaS, AI, fintech, and healthcare. Bridging product strategy, user research, and technical execution to solve complex business problems and drive measurable impact.

WHAT I BRING

1. **Product Strategy:** Translate business challenges into product direction, MVPs, and validated solutions.
2. **UX & Product Experience:** Turn user insights into intuitive experiences that improve usability, engagement, and conversion.
3. **Enterprise & Technical Depth:** Simplify complex systems and bridge design with engineering through functional prototypes.
4. **Leadership & Collaboration:** Lead design teams, mentor designers, and align stakeholders around product decisions.

WORK EXPERIENCE

Optimizely Senior Product Designer - Platform

OCT 2025 - PRESENT

Working across Admin Center, Reporting, Product Recommendations and Content Recommendations

- **Admin Center:** Traced 81% of analyzed support tickets to complex access rules and designed a phased self-service plan for user management. Led Admin Center design for Virtual Teammates. View case ↗
- **Revenue Strategy:** Segmented customers by contract value and cost-to-serve and proposed a three-phase self-service upgrade strategy to reduce sales dependency. View case ↗
- **AI Credit Management:** Designed usage tracking, team allocations and budget controls for enterprise admins View case ↗
- **Research OS (0→1)**: Designed and built an AI-assisted research MVP, reaching 29 users with a 20.5% return rate during initial testing. View case ↗

SieuViet Group Senior Product Designer

OCT 2024 - OCT 2025

Jobseekers platform - vieclam24h.vn - 50.4K MAU

- Identified authentication friction disrupting the job application journey and prioritized a unified login experience.
- Redesigned phone-first authentication while preserving job context, increasing successful logins by **8.4%** and applications by **5%** within one month.

View case ↗

Firegroup Senior Product Designer — APR 2023 - OTC 2024

Trueprofit.io - Shopify SaaS profit analytics - 4.8K MAU - $119.8K MRR

- Redesigned cost-of-goods-sold (COGS) and shipping-cost configuration, simplifying four setup paths into three while preserving existing capabilities.
- Reduced related support tickets by **83%**, shortened **setup time from 8 to 4.3 minutes**, and improved **free-to-paid conversion by 5%**.
- Built and maintained a scalable design system aligned with Shopify Polaris to improve consistency across the product.
