Turns complex, ambiguous problems into intuitive, scalable products through systems thinking, research, and data - across enterprise and consumer experiences in AI, SaaS, fintech, e-commerce, and healthcare.

WORK EXPERIENCE

Optimizely Senior Product Designer - Platform

OCT 2025 - PRESENT

Admin Center platform

Opal Credits (AI credit governance)

Defined the phased V1 direction for credit visibility, allocation, and alerts, framing an ambiguous cross-team billing problem around the admin's JTBD.

Admin Center : Led design across user management, Virtual Teammates, permissions, and usage and billing - turning separate feature requests into a coherent platform experience.

Research OS: Built an AI-assisted workflow from research brief and method selection through synthesis; coded a working MVP to validate the process with product teams.

SieuViet Group Senior Product Designer

OCT 2024 - OCT 2025

Jobseekers platform - vieclam24h.vn

Owned UX improvements for the vieclam24h.vn desktop experience on a platform with **50.4K MAU**, increasing successful logins by **8.4%** and job applications by **5%** within one month.

Firegroup Senior Product Designer

APR 2023 - OCT 2024

Shopify App (Saas) - Truprofit.io

Redesigned COGS and shipping-cost settings for a Truprofit app serving **4.8K MAU** and **generating \$119.8K MRR**, reducing support tickets by **83%**, setup time from **8 to 4.3 minutes**, and increasing **free-to-paid conversion by 5%**.

Built and maintained the design system on Shopify Polaris

PayME Technology Corp Lead Designer

APR 2022 - APR 2023

PayME E-wallet - Fintech

Led a multidisciplinary design team of 6 and mentored junior designers.

Shipped a new e-wallet, PayME POS, and bank-partnered loan flows.

Established design workflows, a roadmap-aligned design system, and brand guidelines with Marketing.

Earlier

- **Zoop Care** - UX Designer, Bewell healthcare app · Sep 2021 - Apr 2022. Launched a new app version and initiated the Home Doctor service; built the persona and research foundation.
